

SupaPowa® PowerPad | Surface

Product Description

Our surface mounted SupaPowa® dual mode transmitter is ideal for high visual impact applications. The technology is integrated flush to the surface with an anti-slip top cover that also acts as a permanent seal against dust or fluid ingress. The anti-slip top cover seal can be branded, coloured and sized to suit customer specific requirements.

Example above has a 100mm Ø Magenta top Cap [Cover Seal] applied.

Product Specification

Part number	SP-TM-DM-XX-16 V1
Finish	Polyester Soft Touch
Colour	Clear
Input	DC 5V/1.5A
Output	DC 5V/1A
Frequency	110K-205KHZ
Net weight	119g
Dimensions	85mm Dia x 23mm Depth
Connection	5V USB AC Power Adapter
Notes	Eight LED indicators & Foreign Object Detection. Supports all Qi & PMA compatible devices and SupaPowa® accessories.
